

Pragmatic ideas for economic development

'the private sector creates jobs, government creates the right environment'

1. A export processing zone, low skill, low wage manufacturing jobs for export products.
2. Copy the Vulindlela Johannesburg partnership with Harambee
3. Partner the private sector to create a training and skills hub linked to enterprise development unit and a entrepreneur VC fund, all managed by existing private institutions with a track record.
4. Housing, large scale partnership with HDA/private sector contractor (DENEL land in CT or Frankenwald in JHB) or large scale serviced site programme with vouchers managed as a PPP (e.g. R20,000 with builder warehouse)
5. A PPP for a large infrastructure project or a complex service that requires significant maintenance and management.
e.g. Traffic lights, billing system.
